Profile Summary

Data Analyst with 1.5+ year of hands-on experience analyzing sales, commercial, and retail data for UAE and India-based businesses. Skilled in SQL, Advanced Excel, Python (Pandas), and Power BI to clean and validate large datasets, track KPIs, identify trends, and turn business questions into clear recommendations for management. Supported analysis of AED 15M+ in commercial opportunities, worked with 500K+ transactional records, and automated weekly reporting to save 12+ hours each week. Experienced with cloud data platforms (Azure, Snowflake). Microsoft-certified Power BI Data Analyst.

Technical Skills

Data Analysis: Sales & Revenue Analysis, KPI Tracking, Trend & Variance Analysis, Customer Segmentation, Churn Analysis, Exploratory Data Analysis (EDA), Data Cleaning & Validation

SQL & Databases: SQL Server, PostgreSQL, MySQL, Complex Joins, CTEs, Subqueries, Window Functions, Aggregations

Excel & Reporting: Advanced Excel, Pivot Tables, XLOOKUP, INDEX-MATCH, Power Pivot, Management Reporting, Reporting Automation

Data Visualization: Power BI (Desktop & Service), DAX, Power Query (M), KPI Dashboards, Drill-through Reporting

Programming & Cloud: Python (Pandas, NumPy), Microsoft Azure, Snowflake, Azure Data Factory, ETL Workflows

Tools & Methods: Data Modeling (Star Schema), Git, JIRA, Agile

Work Experience

Enjay Engineering | Dubai, UAE (Remote, Contract) *May 2025 – Nov 2025*

BI Analyst / Power BI Developer

- Analyzed customer, product, and pricing data across the UAE emirates to identify demand trends and margin leakage for regional sales teams.
- Tracked pipeline KPIs (win rate, quotation aging, conversion) covering AED 15M+ in active opportunities, giving regional leadership a clear view of where deals were stalling.
- Identified stalled and at-risk quotations using aging and conversion analysis, helping sales managers prioritize follow-ups on the highest-value deals.
- Worked with regional sales managers to understand reporting needs and turned their questions into KPI definitions and recurring management reports.
- Automated the weekly quotation report with Power Query, removing 12+ hours of manual work each week and freeing time for analysis.
- Validated quotation and pricing data against source records and built 30+ DAX measures (YoY growth, conversion, aging) to keep reported figures accurate and consistent.

Besant Technologies | Chennai, India *Jan 2026 – Jul 2026*

Data Analyst

- Cleaned, validated, and standardized 500K+ transactional records using SQL (CTEs, joins, window functions), creating one accurate dataset for analysis and reporting.
- Performed exploratory data analysis in SQL and Python (Pandas) to identify sales trends, customer churn indicators, and fulfillment delays.
- Analyzed retail sales, customer behavior, and product performance to highlight top-selling products and underperforming segments.
- Staged and transformed data in a cloud data warehouse (Azure / Snowflake) to support repeatable, scalable analysis.
- Automated scheduled data refresh through Power BI Gateway, cutting reporting delays by 35%.

Projects

UAE Real Estate Sales & Rental Market Analysis

Tools: *SQL, Power BI, Power Query, DAX, Excel*

- Analyzed 8,000 property transactions across all 7 emirates to compare sales revenue, rental activity, and market trends by emirate and overtime.
- Cleaned and standardized raw data in SQL and Power Query, resolving inconsistent emirate names, duplicate listings, and formatting errors before analysis.
- Compared performance across 18 broker teams on revenue, conversion, and contribution to identify top and under-performing teams.
- Presented findings in an interactive Power BI dashboard with drill-downs by emirate, broker, and time period.

Steel Quotation & Sales Performance Analysis

Tools: *Power BI, SQL, Excel, Power Query, DAX*

- Structured quotation data (customers, products, quantities, prices, status, follow-ups) into an analysis-ready dataset, resolving duplicates, missing fields, and date-format issues.
- Analyzed win rate, product demand, steel volume, and emirate activity to identify quotation trends and high-value customers.
- Compared customer and product performance using DAX measures and interactive filters to support management decisions.
- Highlighted stale and high-value opportunities for follow-up, supporting a 15% improvement in sales conversion.

Education

B.E. Computer Science and Engineering *Graduated 2026*

Hindusthan Institute of Technology, Coimbatore

Certifications

- Microsoft Certified: Power BI Data Analyst Associate
- Google Business Intelligence Professional Certificate
- Microsoft Azure Fundamentals (AZ-900)
- Generative AI for Data Analysts — IBM
