KARTHICK RAJA

DATA ANALYST | POWER BI DEVELOPER

About Me

Data Analyst with expertise in Power BI, SQL, Python, and Excel, focused on transforming raw data into meaningful business insights. Experienced in data modeling, DAX, Power Query, and interactive dashboard development to support informed decision-making through clear, accurate, and visually engaging reports.

Dashboard overview,

- Monitors overall loan application and approval performance.
- Analyzes customer demographics, credit scores, and financial profiles.
- Evaluates lending performance using interactive KPIs and visualizations.
- Identifies high-risk applicants based on risk and credit-related metrics.
- Tracks loan distribution across loan purpose, education level, employment status, and home ownership.
- Analyzes monthly loan trends and portfolio performance over time.
- Provides insights into customer segments to support lending decisions.
- Enables dynamic filtering through slicers for detailed data exploration.
- Delivers an interactive and user-friendly reporting experience for business users.
- Supports data-driven decision-making through real-time analytical insights.
